

What is Ag-Air PAC?

Ag-Air PAC is the political action committee of TAAA . TAAA is one of the largest agricultural aviation associations in the country. Ag-Air PAC collects contributions from TAAA members and uses the money to help support candidates for office who are sensitive to our perspective on major issues that affect our industry. Decisions about which candidates to support are made by the TAAA Executive Director with input from the Legislative Committee, currently chaired by Luke Boedeker.

Why is your support important?

We need to be sure that our voice is heard. This is your PAC. By joining our contributions together, our association can have a stronger voice on behalf of the aerial application industry. Everyone has benefitted from the tremendous successes of TAAA's legislative efforts; everyone should help contribute to support these efforts.
